

SAFETY TRAINING THAT WORKS WITH MACFARLANDS

Safety is non-negotiable in our industry. We do what we do because we love it, and because we want to provide for our families and return home safe at the end of the day. MacFarlands offers regular and customized training courses to help you adhere to provincial regulation and keep your employees safe. Our trained safety experts will keep you up to date on the latest regulations and remain a resource for your unique inquiries. We offer training to fit your schedule: evenings, weekends, your facility or ours; we're here for you. Call today or visit online to view upcoming courses. Don't see something you're looking for? Let us know, we'll tailor a course specific to your needs.

MacFarlands
INDUSTRIAL

WHMIS

Every workplace is required to adhere to the WHMIS program and MacFarlands is here to make the process easy and effective for your entire company. Whether it's small or large groups, we can help.

FALL ARREST

One of the most important and overlooked safety aspects is fall arrest training that keeps your workers safe from injury due to falls. Take the time to ensure you're doing everything in your power to stay up to date.

MANLIFT TRAINING

When you have your, or someone else's safety in your hands, it's important that you take every precaution to prevent an injury. That's why we offer comprehensive manlift training just for you.

FORKLIFT TRAINING

With great power comes great responsibility, so MacFarlands gives you the opportunity to help train new and current employees on the right way to operate heavy forks to help keep everyone safe.

BUCKET TRUCK TRAINING

Reaching great heights means taking great precautions to ensure you make it back to the ground safely. We offer a helpful and useful course on the proper way to operate bucket trucks on the job site.

CONFINED SPACE ENTRY

Entering a confined space has its risks, but being prepared and aware is the first step to staying safe. MacFarlands helps with our confined space entry courses designed to prepare everyone for anything.

A NOTE ON SAFETY

MacFarlands is proud to be the largest independent, full-service equipment rental company in Atlantic Canada. From our two locations in HRM, we service Nova Scotia, New Brunswick, PEI, and Newfoundland. We offer full-scale rental, sale and service of new and used equipment, and safety training to large contractors, developers, subtrades, and home owners.

Safety is paramount in our industry. Not taken seriously, it can lead to serious injury and non-compliance can lead to significant fines and business interruption. MacFarlands has been offering safety training to the construction industry for over five years. Our full-time, in-house trainer offers a full range of regular safety training at our professional facility in Burnside.

We are happy to offer onsite training and work around your schedule. Classes can be held in the evening, overnight, or on weekends. We understand it can be a challenge to lose one or more individuals during working hours, so let us work around when is best for you. We also maintain records of expiry dates - you have enough to worry about running your business. We'll notify you when you or your team are due for renewal.

RENTAL. SALES. SERVICE.
